About us

The Ministry of Infrastructure and Transport is directly responsible for policy formulation, planning and design, regulatory implementation and enforcement, coordination and implementation of programs, projects and services relating to public works infrastructure, meteorology, land and maritime transportation and public utilities which encompasses electricity and water.

Our responsibilities cover critical infrastructure areas such as renewable energy systems like hydro power, solar and wind, structural and architectural design, aids to navigation, buildings, joinery, mechanical, electrical, the plant pool, vehicles, solar systems, roads and diesel generators. Likewise the transport sector covers land and maritime transportation as well as meteorological services.

We are also responsible for overseeing policy, legislative, administrative and regulatory functions of various Government Commercial Statutory Authorities (GCSA) including the Land Transport Authority (LTA), Water Authority of Fiji (WAF), Maritime Safety Authority of Fiji (MSAF), Fiji Roads Authority (FRA) and Fiji Electricity Authority (FEA) as the Government Commercial Company (GCC).

This Ministry is one that has undergone major reforms leading to the establishment of the above GCSA and GCC internally to streamline operational effectiveness in all aspects of the Ministry’s deliverables as expected by Government and the citizens of this country.

Vision

Achieving higher economic growth and prosperity for Fiji through better sound advice and service delivery in quality sustainable infrastructures, safe dynamic transport systems, safe clean water, affordable energy sources, advanced meteorological and hydrological products.

Mission

Complete service delivery that is accessible to All.

Values

- Honesty - we commit to an honest day’s work.
- Integrity - we commit to being impartial in all our services.
- Leadership - we commit to exercising strong and sound leadership.
- Teamwork - we value the contribution of all staff irrespective of their appointment and status.
- Innovation - we encourage new ideas and a can do attitude.
- Professionalism - we commit to excellence in all that we do.

Who are Our Customers

Our customers are the citizens of Fiji, including the public and private sector business organizations, overseas development partners, investors and interested visitors plus the Government of the day.

What are Our Expectations from Our Customers

This Ministry welcomes constructive views on the way we can improve in the delivery of service in all areas of our business encompassed under the eight Departments and Divisions, four GCSA’s and one GCC.

What are Our Standards Of Service

We Will:

- be honest in all that we do.
- be determined in all that we do.
- be consistent in all that we do.
- be persistent in all that we do.
- be polite and courteous in all that we do.
- provide advice where this is deemed necessary.
- provide guidance where this is deemed necessary.
